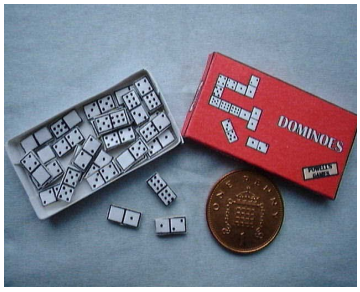
Buttercup Miniatures - Project for 1:12th and 1:6th Scale Dominoes and Box

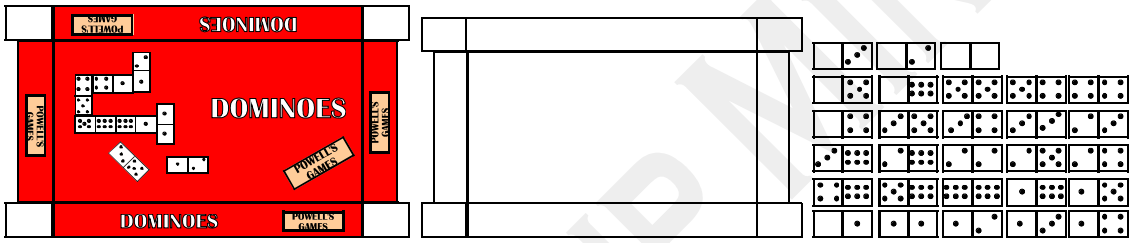


Please note game shown above is 1:12th scale

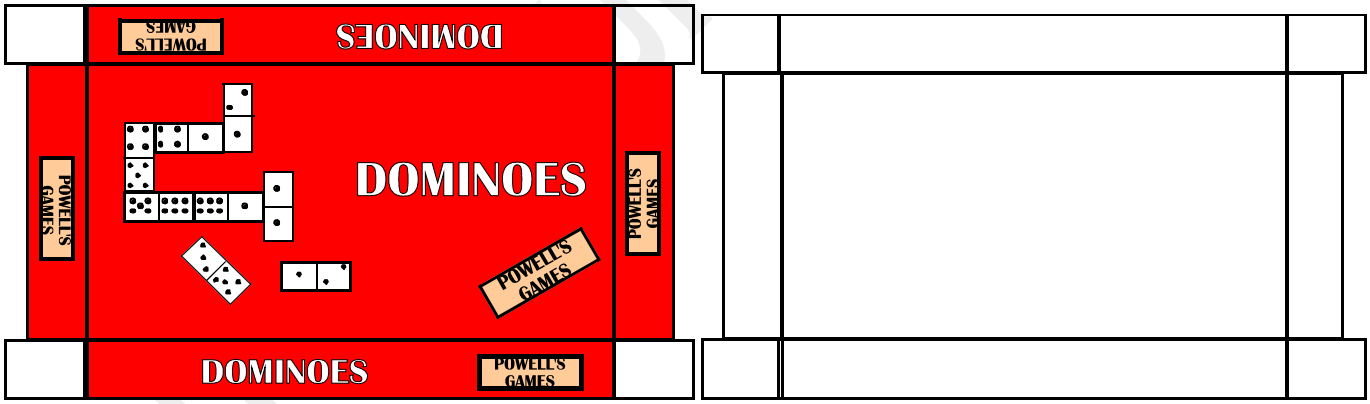
Extra materials required:
Scissors or craft knife, cardboard, and paper glue.

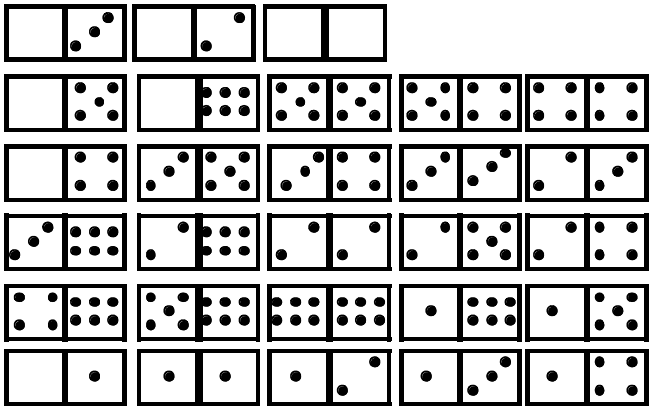
Instructions

1. Print out boxes and dominoes and stick onto thin card (such as a cereal packet, stick paper onto coloured side of cereal box), the dominoes may be stuck onto thicker card for a better effect, such as card used for packaging or on the back of a block of paper.
2. On the red lid section, cut along the line between the white corner and the short side of the box to form a flap which can be tucked under.
3. Fold box sides downwards along white lines and glue white flaps under side edges. Leave to dry.
4. Repeat process with box base and leave to dry.
5. Stick sheet of dominoes onto thicker card and leave to dry.
6. Cut around individual dominoes, making sure paper does not lift, this is quite fiddly in the smaller scale.
7. Place dominoes in box and enjoy.



1:12th scale





1:6th scale
